

SPECIALIST PUBLIC SECTOR RECRUITMENT

Servoca Resourcing Solutions have worked with numerous public sector organisations in a variety of ways. Whether they be Police Forces, Local Authorities, Devolved Regional Government, Central Government Departments, Executive Agencies or Non-Departmental Public Bodies (NDPBs). To each client we have offered a range of predominantly police-skilled services, from generalist investigation skills to specialised technical disciplines.

With the ethos of partnership working becoming firmly embedded within the law enforcement arena, the opportunity to supply more senior individuals in management and strategic roles grows, alongside the need for individuals experienced in engaging with and facilitating cooperative practices with a range of multi-agency partners.

As our standing has developed, we have found more individuals registering their interest with us who have not come from our traditional police base, but from wider public sector backgrounds. So whether civil or criminal justice related, investigative, intelligence or enforcement based, national or international, Servoca Resourcing Solutions possess the capability to provide a swift and effective resource response.

Skills available through Servoca Resourcing Solutions include, but are not restricted to:

General Investigation	PNC
Intelligence Analysis & Research	Compliance
Training	Enforcement
Control Room	Internal Investigation
Specialist Investigation (including Financial, Fraud and Forensic)	

If you know what you are looking for, or would just be interested in examining the possibilities of working with individuals from these types of background on a permanent, fixed term or contract basis, contact Servoca Resourcing Solutions on **0845 073 7800** or visit us at www.servoca-police.com.
