

TRANSCRIPTION & TRANSLATION

When what is required is a secure and trustworthy transcription service delivered by highly skilled and security cleared operatives, all supported by a knowledgeable and responsive management team, then Servoca Managed Services are the obvious choice. In support of this service, Servoca also provides translation services, including interpreters, in over 90 languages. It's a service that solves – at a stroke – the logistical and complex problem of how to use and store written and recorded information.

We work with the police service, government agencies, local authorities, councils and the commercial sector capturing and transcribing huge volumes of taped interview. The quality of the work is well presented, and the service is fully audited providing continuity of evidence where relevant.

It's our background in policing that gives us our uniqueness; expert, experienced and security cleared transcribers and translators.

Accuracy and completeness are key to any transcription service, and that requires specialist vetted transcribers as well as diligent quality controllers. Our service reflects these needs, but adds other benefits such as security and flexibility.

We can offer:

- **Safe, secure and trustworthy service**
- **Highly vetted transcribers, PACE and DPA compliant**
- **Cost-effective, fast and flexible**

All transcription and translation services are not the same. We understand the importance of accuracy, quality and discretion in what must be a responsive service.

If you have specific needs in mind, or would just be interested in examining the possibilities of utilising an independent or outsourced solution, especially in the search for greater cost efficiencies whilst maintaining or increasing levels of performance and accountability contact Servoca Managed Services on **0845 073 7800** or visit us at **www.servoca-police.com**.
